THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:--Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee--weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of slips. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any aches.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms--in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits; and bring back the frame to its primeval health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:--

| | | |
|----------------------------|-----------------------|---|
| Ague | Female Irregularities | Retention of Urine |
| Asthma | Fever of all kinds | Scrofula, or King's Evil |
| Bilious Complaints | Fits | Sore Throats |
| Blotches on the skin | Gout | Stone and Gravel |
| Bowel Complaints | Head-ache | Secondary Symp-toms |
| Colic | Indigestion | Tic Douloureux |
| Constipation of the bowels | Inflammation | Tumours |
| Consumption | Jaundice | Ulcers |
| Debility | Liver Com-plaints | Veneral Affections |
| Dropsy | Lumbago | Worms of all kinds |
| Dysentery | Piles | Weakness, from whatever cause, &c., &c. |
| Erysipelas | Rheumatism | |

NEW WESTMINSTER, THURSDAY, MAR. 23, 1865.

SUPREME COURT FEES ORDINANCE.

There is a Bill before the Legislature just now, bearing the above title, which may fairly be placed in the category of the obnoxious Bills of the present session. We believe we are correct in asserting that all law reform in other countries is in the direction of simplifying and reducing the cost of justice. Many now living can remember the time when the expense of an appeal to the Courts was so great as virtually to debar the poor man and thereby leave him at the mercy of the more favoured class. Very much has been done of late years, however, towards placing justice within the reach of all classes. And why should it not be so? Surely the poor man is more likely to need the protection of the law than the rich. But, strange to say, a Bill has been prepared by somebody in this colony which proposes to reform backwards. It contemplates establishing a sliding scale of Court fees as follows: At New Westminster the, English scale—which, by the way, we understand is pretty high—at Yale, Hope, Douglas, Lytton, and Lillooet 50 per cent. above the English scale, and at other places farther from New Westminster fees to be taken at three times the English rates! It will thus be seen that it is proposed to assimilate the price of justice to the varying price of beans and bacon—that the unfortunate miner in Cariboo or in Kootenay must pay three times as much for justice as a resident of this city. Wonder if the article will be of a superior quality up there, or if the additional price is merely to meet freight and charges? Do not the people of this colony pay annually something like \$250,000 for the protection of their rights? And do not those very miners of Cariboo and other places far away in the interior contribute their full quota of that amount now? Why then, should it be sought to place an additional burden upon the hard worked, hard fisted, heavily taxed miner? It really appears to us most unjust. Let our Courts of Justice be as pure as possible, and let them be thrown open to all, whether rich or poor, and whether residing in New Westminster or in Cariboo. Indeed, if there is to be a differential scale at all we think it should be in favor of the miners who have penetrated into our most remote gold fields, and have to contend with the privations and exorbitant prices of the most inaccessible and inhospitable parts of the colony. There are other provisions of this Bill, such as empowering the Judge to create a new and distinct set of officials to prey upon the community, and pocket all fees, &c., but we deem it unnecessary to enter farther into the merits of a measure which we feel assured the good sense of the Council will consign to merited oblivion, or at least all of it excepting that portion which provides for Court fees going into the Treasury. We were pleased to see the stand taken against it by the Hon. Attorney-General and the Hon. Mr. Walkem; and the opposition of these gentlemen is the more to be admired from the consideration that the Bill is calculated to put money in the pockets of the lawyers.

GLEANINGS FROM VICTORIA PAPERS.—From our Victoria files, brought up by the *Enterprise* last night, we glean the following: Seventy white men are on Leech River in almost destitute circumstances.—The schooner *Triumph* was blown ashore at Wheddy Island, and sustained damage to the extent of \$1000.—The steamer *Pacific* was seized at Portland, on a charge of smuggling \$5,000 worth of opium.—The Rev. J. Hall, of the First Presbyterian Church, is leaving for New Zealand. His place is to be filled by the Rev. James Somerville, of Glasgow, Scotland.—The Rev. Mr. Dundas, of St. John's Church, is leaving for England.—It is stated there will be only one steamer a month from San Francisco to Esquimalt.—In the election contest matter, Mr. McClure has been established in his seat.

FROM UP-RIVER.—The steamer *Hope* arrived from Harrisonmouth on Tuesday evening, bringing an express for Dietz & Nelson. There is no news of interest. The steamers are running on the lakes and Mr. Dodge has a large force of men at work improving the road across the Douglas Portage. The water in the Fraser is reported at a lower stage than ever known before. A Chinaman was reported to have fallen over the bank at Nicaragua Slide, and was killed.

NEW WESTMINSTER, THURSDAY, MAR. 23, 1865.

The Spring Traffic.

Should the weather continue open for a few weeks we shall, in all probability, have a considerable rise in the river and a resumption of traffic with the interior. The winter has been a long, severe and fitful one—unprecedentedly so, as far as the experience of the "oldest settler" extends. Under these circumstances we may hope to have an unusually brisk spring trade, inasmuch as stocks in the interior towns must be very much reduced. There are those who opine that the Cariboo trade will be considerably less this year than it was last. We are not inclined to think there will be any considerable falling off. The amount of provisions, &c., now stored in the interior is considerably lighter than it was a year ago, and we question very much whether there will not be fully as much ground worked during the coming season as there was during the past; for it should not be forgotten that attention is not so much concentrated upon Williams Creek now as it has been heretofore. Cunningham, Lightning, Antler, Grouse, Keithly, Last Chance, Nelson, Willow, Burns, Davis and Chisholm Creeks, are all attracting a new interest, and promise profitable employment to probably as large a mining population in the aggregate as Williams Creek employed last year. But on Williams itself more ground will be worked this year than last, owing to the progress made with the Bed Rock Drain which will enable a large number of claims, hitherto locked up, to be worked to advantage. The quartz lead on Williams will in all probability be opened up in the course of the year; and thus will be inaugurated a class of mining hitherto unknown in the country, and for which, we are assured, Cariboo affords an extensive and rich field. In addition to all this there is the Horse-fly country which we feel persuaded will attract more or less population this season. In view of all these considerations we think we are warranted in asserting that there will be no falling off either in the trade or in the yield of Cariboo, notwithstanding the rush which is certain to take place to Kootenay. One object in making these remarks is to call the attention of the Government to the importance of opening the road through the canyons above Yale as early as may be practicable. A few weeks' fine weather will settle the snow upon the mountain cliffs so that no more slides need be apprehended; and as soon as that takes place a strong force should be put on to raise the blockade created by the avalanches of snow. When the time comes for commencing operations every day will be of great importance, and to place a mere handful of men upon a work of considerable magnitude would be a penny wise and pound foolish arrangement indeed. We throw out these hints without having the most remote idea of what arrangements may be in contemplation, because in times past a mistaken policy has been pursued, and far too much time lost in works of this sort, and at the same time feeling pretty well assured that there will be more energy and promptitude displayed by the present administration.

ABORIGINAL CRANERY.—We noticed a few days ago the circumstance of the young Chilliwack Chief, having decapitated the widow of his predecessor. We have since learned that the woman was his step-mother, and that the circumstances under which the tragedy was enacted were as follows: The old chief's first wife died, upon which he married the woman just murdered. The Chief himself died some time ago and bequeathed to his wife something like \$800 in money. This money the son conceived himself to be entitled to, and in order to settle the dispute and secure the legacy he with an axe severed the head of the poor widow from the body! We believe police officers have gone up to the scene of murder where we understand the culprit awaits his fate. We should have mentioned that he did not succeed in securing the coveted money, as his victim had taken the precaution to conceal it, and there is little probability of its being discovered. It appears that the young "Tyke" is a bad man and does not stand well either with his own tribe or those adjacent to it. The tribe to which the murdered woman belongs is clamoring for his blood; and unless "King George" justice be speedily meted out to him there is little doubt that he will be dealt with in a summary way. It is to be regretted that justice is so tardy in this colony with respect to the Indians. The news of this murder reached us on the 15th; and it is not very creditable to the authorities that no steps have been taken till now. If we would have the Indians abandon their own law, and rely upon our laws for protection and justice the administration of those laws must be more prompt.

Since the above was in type we learn that the Hon. Mr. Brew will proceed to-day upon the steamer *Leviathan* to investigate the matter upon the spot.

ARRIVAL OF THE MISSIONARY SHIP.—The missionary schooner *Carlena* arrived in port yesterday with a cargo of goods for the Mission at Metlakatlah.

The Telegraph Cable Laid.

Tuesday, the 21st March, 1865, is a day long to be remembered in the history of this colony—a day which will take its allotted place in our Almanacks, as that upon which the telegraphic cable was submerged across the Fraser. On Tuesday, shortly before noon, the work of submerging the cable was successfully performed, under the direction of James Gamble, Esq., Superintendent of the California State Telegraph, and the time occupied in the work was precisely seven minutes. The Governor's steam-yacht *Leviathan* was used upon the occasion. His Excellency himself steering, and handling most admirably, the little steamer during the whole operation, the star-spangled banner, the while, proudly waving from the main peak. No greater or more graceful compliment could have been paid to the Telegraph Company and to the enterprising nation to which they belong. We were first apprised of the completion of the work by having the following dispatch placed on our table as we sat down to lunch:—

Opposite New Westminster,
March 21st, 1865, 11:45 A.M.

To the Editor *British Columbian*.—

We have to announce that the Cable is laid and working. It was laid in seven (7) minutes.

TELEGRAPH.

It will hardly be necessary to explain that this dispatch was merely transmitted from the opposite bank of the river, a battery having been taken over for the purpose of testing the cable. The line crosses, as we have already indicated, from Albert Crescent to the south-west corner of Mr. Brown's ranch. We learn that a party commenced yesterday to work from this end of the line, and, should the weather prove at all favorable they will probably meet the other party in the course of a week, so that it is not unreasonable to hope that in ten days or a fortnight from the present time we shall be enabled to place before our readers regular telegraphic dispatches from California and the East.

Mr. Conway starts to-day with a party to explore the route for the Collin's line from this city to Hope.

Legislative Council.

WEDNESDAY, March 22nd, 1865.

The Council met at 2 o'clock, all the members being present with the exception of Hon. Mr. Homer. Minutes of previous meeting read and confirmed.

MESSAGES.

Hon. Colonial Secretary read the following messages from the Governor:—
Message No. 28, assenting to the Municipalities Ordinance;
Message No. 29, assenting to the Excise Ordinance;

Message No. 30, which read as follows:—
"The inclemency of the weather having probably detained within the colony a considerable quantity of gold, raised previous to the knowledge by the miner of the intention of the Legislature to impose an export duty on gold, the Governor recommends that the following amendment be made in the Bill entitled 'An Ordinance for imposing a duty on gold': That the word 'first,' standing the fifth in the 2nd clause, be struck out and the word 'fifteenth' be inserted in its place.

Government House, March 22nd, 1865."

HARBOR REGULATION BILL.

This Bill was read a third time and passed.

INDIAN LIQUOR BILL.

This Bill was passed through Committee and adopted, with several alterations, and the third reading appointed for Friday.

VICE-ADMIRALTY PRACTICE BILL.

This Bill was introduced by the Hon. Mr. Walkem for a second reading. It was committed and passed, and placed on the Orders of the Day for a third reading on Friday.

GOLD EXPORT BILL.

The Hon. Colonial Secretary moved the House into Committee of the Whole upon this Bill for the purpose of making the alteration recommended in the Governor's message. Some little discussion took place, the Hon. Mr. Holbrook and the Hon. Mr. Walkem opposing the change upon the ground that there had been ample notice, and that the practical effect of the change would be to allow a considerable amount of gold in the hands of Chinese to escape the tax. The committee rose, reported progress, and asked leave to sit again on Friday, when the House adjourned till Friday at 3 o'clock.

A SELL.—We see in the Victoria papers a notice of a meeting of Cariboo miners held at the Colonial Hotel here, at which a resolution in favor of union was carried by "a majority of nine in an assembly of fifty persons." Some wag has been selling our contemporaries, as no such meeting took place.

RECEPTION OF THE BISHOP.—We see from the Victoria papers that Bishop Hills has met with a warm reception on his return from England, after an absence of twelve months. Addresses of welcome and congratulation were presented from the Anglican Clergy, Church Committees and Church Choirs.

FROM NANAIMO.—The steamer *Fideliter*, Capt. London, arrived yesterday from Nanaimo with cargo of coal and a number of passengers. We have to thank Capt. London for files of the *British Colonist*.

FREIGHT TO KOOTENAY.—The *British Colonist* learns that three Victoria traders have contracted with packers in British Columbia to convey 50,000, 75,000 and 150,000 lbs.—in all 275,000 lbs. of goods—to Kootenay, early this season.

Hospital Meeting.

A meeting of the subscribers to the Royal Columbian Hospital was held in the Hyack Hall on Tuesday evening, the President of the Board, Charles Good, Esq., in the chair, and Mr. Berkeley acting as Secretary to the meeting.

The report of the Auditors, appointed to investigate the Treasurer's accounts for the past year, was read. The report was very similar to one previously handed in by Mr. McMicking, and contained little beyond an expression of inability to audit the accounts, owing to the absence of the necessary papers and vouchers. The President informed the meeting that a copy of the report had been sent to the Governor with the suggestion that the ex-Treasurer should be called upon to furnish a full statement and hand over all documents &c. appertaining to the institution.

Three vacancies in the Board of Management were filled up by the election of Mr. Birkley as Secretary, and Messrs. Dickinson and Withrow. The President informed the meeting that the Board had proposed to request two gentlemen resident in every town in the colony to interest themselves in procuring subscriptions, to place boxes upon all the steamers visiting this port, to place cards in the hands of ladies, and to request the Bishop of Columbia to preach a sermon and devote the collection towards the support of the institution.

The Rev. Mr. Jamieson asked whether this arrangement was to be confined to the Church of England, or whether the clergymen of other denominations would not also be invited to do the same. The institution was a non-sectarian one, and certainly worthy of the support of all. The President explained that he was so accustomed to Church and State that he had inadvertently overlooked this point, but he thought it was desirable to make the arrangement general.

It was moved by Mr. Ferris, seconded by Mr. Cormack, and *Resolved*, That the clergy of each religious denomination in New Westminster be requested to preach a sermon during the year on behalf of the Hospital.

The President read over the new subscription list, liberally headed by His Excellency the Governor, and showing something over \$800.

It was suggested that in the event of vacancies in the Board of Management occurring in the course of the year the Board should have power to fill up such vacancies without having recourse to a meeting of subscribers. This was objected to as unconstitutional and undesirable, the subscribers alone having the right to elect the Board.

The meeting then adjourned.

EASTERN NEWS.—We have war news to the 13th, but unimportant. Richmond papers report treasure and valuables being removed from the city. The greater portion of the troops in the Shenandoah Valley have been concentrated in the vicinity of Lynchburg. There has been more fighting in Mexico and the French troops are said to have got the worst of it. A telegram dated Quebec, March 11th, announces the fact that Parliament had that afternoon adopted the Confederation scheme by 91 yeas to 33 noes.

THE ROAD TOLLS RESOLUTION.—A resolution passed by the Legislature some two or three weeks ago, asking the Governor to provide for native produce passing over certain roads free of toll. The farmers in the interior feel some anxiety respecting the matter, which we hope will not escape His Excellency's attention.

TAKING THE GRADES.—Mr. Turnbull, C. E., commenced taking the grades &c. yesterday, preparatory to getting up specifications for the grading of Columbia street east of Lytton Square. We are glad to see a disposition manifested to place this work in the market at once so as to afford employment to those who may desire it previous to proceeding to the mines.

BURRARD INLET MILLS.—The *Fideliter* towed a bark into Burrard Inlet yesterday to load with lumber for the Australian market. She will take a cargo of 300,000 feet.

ARRIVAL OF THE "ENTERPRISE."—The steamer *Enterprise* arrived from Victoria last evening with something over 200 passengers, 180 tons of freight, and a large number of beef cattle and sheep for Messrs. Dickinson Brothers. She will leave to-morrow morning.

THE CAMP ROAD.—The contract for constructing a road along the water side to the Camp has been awarded to Mr. Holmes at, rumor saith, \$3,000.

THE STEAMER "HOPE" will leave to-day for Harrisonmouth, where she will connect with the *Henrietta* for Douglas.

To the Editor of the *British Columbian*.

MY DEAR SIR,—Would you call the attention of the authorities to a murder that has been committed in this settlement a week or two ago. Mr. Dodge, of the steamer *Hope*, when here, took a memorandum of it, but as nothing has yet been done I think it is but my duty to myself and fellow settlers to urge prompt action in the matter or the consequences may yet be serious and more than one life sacrificed. An Indian known as Bill Wy-you-se-look deliberately killed a Hootchman, the wife of his father, by breaking in her skull with an axe, and justifies himself by saying that she poisoned his father and appropriated to her own use \$800 that he thought should have come to him. Bill admitted to me his having murdered the squaw, but said that she first "saw-waved mesatche" to him. He is a thorough scoundrel, and has told others that he has killed two or three persons before. If the authorities allow such a man to escape with impunity I do not know where the affair will end. I am told that there are now two Neutack Indians (the tribe to which the murdered squaw belongs) lurking in the woods trying to get a shot at

some of the Chilliwacks; and as it is the custom with the Indians to retaliate on the first person they find of the tribe to which the murderer belongs, no doubt some innocent one will suffer. Bill himself told me that he saw an Indian a couple of nights ago lurking near his house, with a musket hid along his side.

The Indians should be shown that by applying to the authorities justice will be done them, and that they must not take the law into their own hands by committing murder, as this fellow has done, or take an axe and hack up in a most shocking manner a number of work oxen, as another did last summer for Jack Reece, who, to say the least of it, in the most thoughtless manner allowed his men to drive those cattle over the Chilliwack among the unfenced Indian potato-patches, although he had good feed on his own side of the river without interfering with the Indians. I think if Bill was arrested there would be no quarrel between the Neutacks and the Chilliwacks at present. Their disagreement is a great annoyance and may be a great loss, for I cannot get them to boat down to the Sumass a lot of hay that I have sold to my friend Mr. Miller there. He has brought a nice band of cows from Oregon, and after bringing them through this severe winter may lose them for want of hay, as the hay on the Sumass is consumed.

I am, my dear Sir,

Yours truly,

Thos. J. MARKS.

Too Numerous to Mention!
Parties would do well to call and ascertain his prices
before purchasing, as he is determined to sell at prices
which will leave no inducement to go elsewhere.

The above stock having been imported previous to
the enactment of the high Tariff, families will save
money by laying in a supply without delay.

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.
Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.
No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when-
ever this medicine is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflam-
-mation.**
These distressing and weakening diseases may with
certainty be cured by the sufferer themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.
Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if these
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**
After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.**
On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ul-
ceration. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**
This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—
Bad Legs. Chapped Hands. Scalds.
Bad Breasts. Contracted and Sore Nipples.
Burns. Stiff Joints. Sore-throats.
Bunions. Elephantiasis. Skin-diseases.
Bite of Mosquitoes. Fistulas. Scurvy.
and Sand-Flies. Gout. Sore-heads.
Coco-bay. Glandular Swel- Tumors.
Chicago-foot. lings. Ulcers.
Corns (soft). Lambago. Wounds.
Cancers. Piles. Yaws.
Chilblains. Rheumatism.
